

Bizliner S.A./N.V. is a truly niche company, focused on Enterprise Architecture, Business Architecture and IT Architecture. We develop and deploy tool-assisted services by fitting tools to assist our consultants in accelerating their value addition to the customers. We drive business value by improving business and IT alignment across people, process, assets and system resources in customer organisations.

The result? Faster decision-making, lower costs and significant operational improvements. Currently we are looking for

Enterprise Architects (m/w)

Profile:

- Broad business and architecture interest and experience
- Ability to familiarize with new products/methodologies/technologies at a high pace
- Business attitude and solution driven
- Good communication Skills (written, oral, shows, etc.) – Technical Writer
- Team-worker, but able to work independently
- Ability to treat multiple projects simultaneously
- Strong analytical skills and stress Resistant

Experience:

- 10 years of work experience, with exposure to several business and architecture domains.
- Used to translate and breakdown complex requirements into coherent components
- Experienced in implementing changes in complex organisations with communication and co-ordination skills, using a critical mindset and result oriented.

Knowledge of one or more architecture and Enterprise Architecture methodologies, frameworks and the corresponding tools with successful deployment experience is mandatory.

Key responsibilities:

Lead Enterprise and IT Architecture missions at customer premises as well as in back-office mode.

Cross functional architecture conception and deployment including methodologies and tools.

Multi-customer missions managed in parallel.

Manage, develop and lead small junior architect teams.

Develop and enhance usage of Bizliner methodologies, tools and services.

We propose:

If you are looking for an opportunity to join an exciting growing company and to get the freedom to develop your own business environment, we encourage you to apply today!
